

# DRIVE EXPERIENCE | CUSTOMERS DRIVE YOUR MACHINE

NEW

## DRIVE EXPERIENCE: ALTERNATIVE POWER SYSTEMS

Alternative drive systems – where will the power of the future come from?

Let visitors tests to drive your machine with **alternative drive solutions** on the 'Drive Experience' course.

Machines that are powered by **biomethane, hydrogen, electricity** or **other alternatives** are permitted. Machines can be prototypes, but must be fully functional.

You determine who drives!

Access is only available for visitors who obtain a “driver voucher” at your booth.

**Price EUR 9.900**

→ 10% discount on each additional vehicle of the same brand

- Price includes security personnel overnight, fire watch standby, security service during the exhibition, pro rata costs for traffic signs, marking and signage for visitors.
- Two of your employees will be present at the drive course for each machine and will accompany the visitors at the machine.
- Refueling and charging stations will be provided on site (billing will be based on consumption)
- DLG reserves the right to adjust costs up to AGRITECHNICA 2023, if necessary
