AGRITECHNICA – Hanover, Germany

World's leading trade fair for agricultural machinery

AGRITECHNICA is the meeting place for decision-makers and the leading business marketplace for the international agricultural sector. It is a showcase for the global agricultural machinery industry and a forum for the future of crop production. All the leading companies in the sector present their new products and innovations at the world's leading trade fair for agricultural machinery.

SYSTEMS & COMPONENTS - the B2B marketplace for the international agricultural machinery supply industry and the off-highway sector - takes place at the same time as AGRITECHNICA.

agritechnica.com

2,700 exhibitors from 53 countries | 470,000 visitors from 149 countries
24 halls | 400 events and conferences

AGRITECHNICA ASIA – Bangkok, Thailand

AGRITECHNICA ASIA – Ho Chi Minh City, Vietnam

The leading trade fair for crop production & smart farming in Asia

The premier trade fair for agricultural machinery and innovation in Asia! As the leading platform for showcasing cutting-edge machinery, equipment and solutions in the farming sector, AGRITECHNICA ASIA brings global industry leaders, innovators and professionals together under one roof. With 48% international trade participants from 73 countries, it is our industry's meeting point in Asia.

AGRITECHNICA ASIA takes place annually, alternating between Bangkok (Thailand) and Ho Chi Minh City (Vietnam).

agritechnica-asia.com

350 exhibitors | 12,000 visitors from 73 countries | 118 speakers*

* AGRITECHNICA ASIA 2024

FutureAg powered by AGRITECHNICA Melbourne, Australia

Australia's professional and international indoor exhibition and conference for agricultural machinery

FutureAg powered by AGRITECHNICA is a professional trade fair for agricultural machinery with a primary focus on crop production. Given that many crop farmers in Australia also engage in extensive livestock farming, this serves as the second key focus of the event.

FutureAg additionally showcases future-oriented technologies such as automation, data integration and next-generation farming solutions, driving innovation across the agribusiness sector.
